Product Information

General Purpose Flux Remover - EU is a versatile cleaner effective on no-clean and rosin fluxes in benchtop and bulk cleaning applications. This powerful, nonflammable cleaner is fast drying and easy to use. Recommended for cleaning all types of electronics including thru-hole, SMT, BGA boards as well as hybrids, cables, and connectors, it is little wonder the General Purpose Flux Remover - EU is used by electronics assembly lines and repair depots throughout the world.

With excellent health/safety ratings and azeotropic properties, General Purpose Flux Remover - EU offers advantages over competing nonflammable choices because it remains nonflammable in both liquid and vapour phases. This allows a user to specify one cleaner for benchtop as well as vapour degreaser or heated system applications.

Safe on components, nylon, epoxies, polyethylene, polypropylene and PVC. May affect polystyrene and polycarbonates. Test before use on plastics.

Dispense directly from the can or use with the MicroCare TriggerGrip cleaning system for faster, safer, and more economical process of cleaning printed circuit boards at the work bench.
